It's bigger than the Super Bowl, bigger than any heavyweight championship, even bigger than WrestleFest XIV! The fiercest competitors from across the...

The TV reporters image shrinks to a dot, then blips off the screen. “That's it, man. I'm signing up. I'll show 'em what tough really means!” With that, Raphael whips a Sai across the room, where it sticks deep into the wall.

Michaelangelo and Donatello look up from their game of cards as plaster sprays on the floor. “Dude! You better quit puttin' holes in April's walls.” Michaelangelo says. “You know how ticked she gets when you do that.”

Leonardo turns to the others with a thoughtful expression on his face. “Y'know, I think this tournament could be great,” he says, “but I don’t know if all four of us should enter. Why don't we have a contest to see who's the toughest among us, and then send that guy to the...”

At that moment an arrow crashes through the living room window and whines in front of Raph's head, missing him by inches. Startled, the Turtles look at the arrow and see a piece of paper tied around the shaft. Leo reaches out, takes the note, and reads it. When he finishes, he tells the others what was in the note.

The four youths look at each other in awe and anger. “Okay, it's time for action.” Leo says with authority. “I don't know who this Karai is. Maybe Master Splinter knows. Let's go home and ask him—the tournament will have to wait for now.”
STRETCH YOUR MUSCLES

...and get ready to fight. You have two paths to choose from: fight in the tournament or play through the story.

THE TOURNAMENT pits you against all the other characters in a major league slugfest. You’ll fight hand-to-fin with the awesome Armaggon, and get a chance to slap around Wingnut—if he doesn’t floor you with his patented Moon Buster attack. War will show you how he earned his name as he smashes your tail into the ground, and Aska will lay you out with her lightning fast Ninja kicks. And after a few electrifying rounds with Chrome Dome, you’ll feel like you’re made of clay. So if you’re prepared for combat, this will be the one street fight you never forget.

THE STORY lets you pick a Turtle as your champion. Then, you have to prove yourself worthy of the rescue attempt by defeating the other characters in combat. If you are the toughest Turtle, you’ll go face-to-face with every character as you try to save April—and Splinter! It’s all-out face-smashing, bone-breaking brawling against the baddest group of mutants ever assembled in one game. Use really cool special attack moves and your powerful Ninja weapons to beat your opponents to a pulp. Every round you win leads you closer to unraveling the mystery—who is Karai?

BATTLE MODES

TOURNAMENT

(1 PLAYER; ANY CHARACTER)

You fight for money in Channel 6’s Tournament Fighter competition. Just beat the selected opponent in two-out-of-three rounds to win a match. Fight through every available opponent (even a clone of your own character!) to take home big bucks.

- At the character select screen, choose one of the ten characters (by pressing the control pad left/right). Press the START button to select the highlighted character.

- Your computer-controlled opponent and fight stage will be selected automatically.

RULES:

1. Each match is a best-of-three match. The first fighter to earn two victories is the winner.

2. If you knock out (KO) your opponent before the clock runs out, you earn one victory. (Change the clock settings in the Options mode.)

3. If there isn’t a KO within the time limit, then the fighter with the longest life gauge wins.

4. When you win a match you earn prize money and advance to the next match.

5. You can fight a match as many times as you wish (unlimited continues).

NOTE: If a second player wishes to join in, he/she may press START on the 2P controller. This switches you to VS BATTLE mode, and you cannot switch back to TOURNAMENT mode. This works in STORY mode, too.
VS. BATTLE

(2 PLAYERS; ANY CHARACTER)

Two players can battle each other using any two of the ten characters they wish—even the same character. It’s a best two-out-of-three battle for big bucks and bragging rights.

- At the character select screen, each player chooses a fighter using his/her control pad. Press START to select your fighter.

- After you have both selected a fighter, you will be taken to the stage select screen. Either player may choose a stage with the control pad, then accept it with the START button.

- Press SELECT at the character select screen to bring up the configuration screen (if you want to change the default button settings on your controller).

- Press SELECT at the stage select screen to set “handicap”. Press SELECT to return to the stage select or press START to go right to the stage that was highlighted before entering the “handicap” screen.

RULES:

1. Each match is a best-of-three match. The first fighter to earn two victories is the winner.

2. If you knock out your opponent before the clock runs out, you earn one victory.

3. If there isn’t a KO within the time limit, then the fighter with the longest life gauge wins.

4. You can check your win-loss record after every match, then return to the character select screen.

5. You can fight as many times as you wish (unlimited continues).
**STORY BATTLE**

(1 PLAYER: ANY TURTLE)

You select one of the Turtles as your champion, then fight through Channel 6’s Tournament Fighter competition with the goal of discovering who is behind the kidnapping of April and Splinter. You will be fighting through all of the other characters to gather information and save your friends.

- At the character select screen, choose one of the Turtles. Press the START button to select the highlighted character.
- Your computer-controlled opponent and fight stage will be selected automatically.

**RULES:**

1. Each match is a best-of-three match. The first fighter to earn two victories is the winner.

2. If you knock out your opponent before the clock runs out, you earn one victory.

3. If there isn’t a KO within the time limit, then the fighter with the longest life gauge wins.

4. When you lose, the game is over.

5. You can continue as long as you have credit left. The number of continue credits is set in the Option mode.

**WATCH**

(0 PLAYERS: SELECT OPPONENTS)

Select two fighters (using the 1- and 2-Player control pads), pick the stage, then sit back, grab a safe seat and watch the battle begin!
CONTROLLING YOUR FIGHTER

Each fighter has two punches, two kicks, and a variety of special moves. The way your fighter carries out these moves differs based on the proximity of your opponent.

Note: All of the moves and button-pressing combinations listed are for a fighter on the left side of the screen attacking an opponent on the right side of the screen. If you are attacking from right-to-left, the moves are reversed.

**FIGHTER → OPPONENT**

The default button settings are:

- X button .... Fierce punch
- Y button .... Normal punch
- A button .... Fierce kick
- B button .... Normal kick

START button .... Pause

SELECT button .... (For VS BATTLE mode only) at the stage select screen press the SELECT button to change the handicap and controller buttons.

Handicap: 0 = weakest; 7 = strongest.

(Note: These settings can be changed using the Option mode. The Left/Right buttons are not used in the defaults.)

The control pad directions are:

- Up = Jump
- Left = Retreat/Guard
- Right = Advance
- Down = Crouch
MOVES AND ATTACKS

Guard—If you guard against an opponent’s attack, you can block it and reduce the amount of damage taken. If you block a normal or fierce attack you take no damage. Trying to block special attack moves is tough. These forces are so strong that some degree of damage will occur if you are unfortunate enough to be caught in their path.

Near attacks—These are done when you are standing next to another fighter. There are two types of near attacks—throws and holds. For example, Armaggon has a hold move where he grabs his opponent and repeatedly bites him/her. Aska has a devastating facemask throw. To execute a near attack, approach an opponent and press the control pad plus the X, Y or A button (depending on the character) in his/her direction to throw him/her. If you press the button and quickly press the control pad in the other direction, you will throw the enemy that way.

Knockout—If you take continuous hits from your opponent you will get dazed and confused—as if you were hit by a lead blimp. You’ll start to see stars spinning around your head. Tap any button and press left/right on the control pad to speed your recovery and regain control.

Special attacks and the ultimate-attack—Every character has special attack moves and one ultimate attack move. You will find the control sequences for these moves listed in the following pages with each character profile.
GAUGE GUIDE

Each fighter has two gauges: a life gauge and an ultimate-attack gauge.

Life gauge—Each time you take a hit your life gauge decreases. When your life gauge is empty, you lose the fight.

Ultimate attack gauge—Your ultimate-attack gauge increases as you hit your opponent. When it is full, you can use your ultimate-attack move. Using the move radically drops the level of your gauge, so you will have to build it back up. Your ultimate-attack gauge will slowly decrease with time if you stop landing hits on your opponent.

Note: There isn’t an ultimate attack gauge in STORY mode, because you can’t use the ultimate attack move!
